Notes: 1 - Combined Federal & Provincial (BC) Personal Taxes <https://www.taxtips.ca/taxrates/bc.htm>; 2 - Marginal tax rate for capital gains is a % of total capital gains (not taxable capital gains); 3 - The rates apply to the actual amount of taxable dividends received from taxable Canadian corporations. Eligible dividends are those paid by public corporations and private companies out of earnings that have been taxed at the general corporate tax rate (the dividend must be designated by the payor corporation as an eligible dividend). Where the dividend tax credit exceeds the federal and provincial tax otherwise payable on the dividends, the rates do not reflect the value of the excess credit that may be used to offset taxes payable from other sources of income; 4 - Individuals resident in British Columbia on December 31, 2024 with taxable income up to \$23,390 generally pay no provincial income tax as a result of a low-income tax reduction. The low-income tax reduction is clawed back on income in excess of \$24,338 until the reduction is eliminated, resulting in an additional 3.56% of provincial tax on income between \$24,339 and \$39,703; 5 - for 2024: from \$14,156 to \$15,705 for taxpayers with net income of \$173,205 or less. For incomes above this threshold, the additional amount of \$1,549 is reduced until it becomes zero at net income of \$246,752. The marginal rate for \$173,205 to \$246,752 is 29.32% because of the personal amount reduction through this tax bracket. The additional 0.32% is calculated as $15\% \times (\$15,705 - \$14,156) / (\$246,752 - \$173,205)$. 6 - If you are under 65 working and receiving CPP, you and your employer must make CPP contributions; 7 - January to March 2024
